Bangladesh is a developing country. Due to industrialization, peoples are suffering for different diseases. For proper treatment, identifying the disease is a big challenge. The diagnostic centers have a big role to solve this task. We are just here for supporting those people who are always working for this. In this section Patient, Doctor, Profile, Billing, Report, Accounts creating are complex jobs. **"EASY TEST"** makes this easier and faster than anyone can imagine. It can manage all without any mistake and help to reduce your number of employee and save a big amount of money without disturbing your workflow.

Software Features

Patient Billing System:

1. Automatically creates bill copy for "**Test**", "**Consultation**" and "**Medicine**".

2. Discount system in percentage (%) and fist amount.

3. Due bill payment system.

4. Supplier commission deduction system.

5. Print office and patient copy, by a click.

Reporting System:

1. Automatically the pathologist will get alarm, if you will entry any new patient.

2. Pathologist automatically will know, how many and which test He/She have to do.

3. All the test formats have given in "Easy Test" software. Therefore, when the pathologist will click on a test, the particular test will come with its own format.

4. To make test report the pathologist just have to entry the test result information.

5. All the test report will saved in the system. Therefore, anytime you can print it.
